

What is Cancer Guardian?

Empower employees to identify their genetic risk in advance and address the challenges presented when dealing with cancer.

Cancer Guardian solves the problem of awareness, access and affordability to services that can help improve prevention and survival.

Americans born today now have a 50% chance of developing cancer in their lifetime.¹

80% of people with a hereditary cancer risk don't know they have an increased risk.²

47% of patients and care givers indicated that they had no knowledgeable advocates in finding an effective treatment/solution for their cancer.³

Program Features

CANCER SUPPORT SPECIALISTS

- 1 The **Cancer Information Line** is available to all enrollees and their immediate family members (including parents) at any time.
- 2 If an enrollee is diagnosed with cancer, we assign a dedicated **Cancer Support Specialist** to support them through their cancer journey.

Additionally, Cancer Guardian Provides:

- Customized Information and Resources
- Second Opinion Pathology Review
- On-Site Nurse Navigator

MEDICAL RECORDS PLATFORM

This technology gives enrollees and their family members access to a secure, cloud-based solution for storing and transmitting medical records for any condition, at any time.

- Video Consultation Features
- Radiological Image Viewer
- Personal Medical Profile

ADVANCED DNA TESTING

- 1 **Preventive: Hereditary Cancer Screening Test**
This testing gives enrollees insight into their genetic risk for cancer.
- 2 **Post Diagnosis: Advanced DNA Testing of the Cancer**
If an enrollee is diagnosed with cancer, we provide access to Advanced DNA Testing of the cancer, which can help their doctor identify the most effective treatment options.

The program includes up to three Advanced DNA Tests of the cancer.

People Love Cancer Guardian

What Employers are Saying

“Partnering with WGA and providing the Cancer Guardian benefit allowed us to align our mission to our benefits, and deliver an extraordinary service to our teammates and their families.

It is an offering that will provide benefits that extend beyond what we can foresee. Preparing for open enrollment can be daunting, but our experience with WGA was anything but.

The entire process from implementation to presenting this great benefit to our teammates was seamless and very easy. The WGA representatives we had were experts and it felt like they were part of our benefits team.”

Juanita Simpson

Dir., HR & Corporate Training
Administrative Services Organization

What Brokers are Saying

“Our firm immediately saw the value that Cancer Guardian brings to our employer clients and distribution partners. We have not seen another employee benefits program of this caliber that provides a dedicated cancer strategy for managing the impacts of cancer in the workplace... Cancer Guardian is a great choice for employers and their employees.”

Marcia Ellis

Vice President, Business Development
National Employee Benefits Marketing Organization

“Cancer Guardian is an innovative benefit that can potentially save lives. People deserve affordable access to genetic testing and support services that help them be more preventative and help them beat cancer if they’re ever diagnosed. This unique offering is a great way for employers to differentiate their benefits offering and show their employees that they care.”

Chris Krusiewicz

Vice President, Business Development
National Employee Benefits Marketing Organization

Cancer Guardian Patient Testimonial

“Everyone I have dealt with at Cancer Guardian has provided empathy and much needed support during my journey after having been diagnosed with my illness. Their care and concern shines through in all that they have provided...from allowing you to talk through your emotions, providing resources so I learn more about my rare illness, calling weekly to see how I am doing, if I am staying on track with goals, providing direction when I am lost to being by my side physically when visiting my doctor. I am extremely grateful and comforted to have them on my team as they also bring a calmness among the roller coaster of emotions during this time.”

Arlene Shutt

Cancer Guardian Patient Member

Support from the Medical Community

“The Cancer Guardian program provides more than just support, it helps cancer patients and their families build strategies that will help improve the entire cancer experience.

By making these types of services available to the wider population, we are fundamentally improving the way cancer is treated.”*

Dr. Stergios Zacharoulis, MD

Former Lead Pediatric Neuro-Oncologist, The Royal Marsden, London
