PlanSource audits and reconciles list bills and prepares self-reported bills using enrollment data.

PlanSource generates a monthly consolidated invoice listing the totals for each carrier. The invoice and supporting documents are uploaded to a secure FTP site for client access.

4. Pay Carriers (optional service)

You submit the grand total to PlanSource, and we remit premium directly to carriers.

Manual Without PlanSource

If you're manually managing enrollment and reconciling payment with each carrier, keeping everything straight is on you. Even if you're only dealing with one carrier and a couple products, this manual process can easily become administratively burdensome.

Automated With PlanSource

With PlanSource Benefits Administration as the source of truth for what products employees enroll in, reconciling bills from the carriers just got easier. In other words, PlanSource generates self-bills and helps you reconcile carrier bills, but we don't do the work for you.

OutSource to PlanSource

With the PlanSource Billing Reconciliation and Payment Service, not only will PlanSource be the source of record for enrollment, but we'll take care of reconciling the bills and we can even pay them for you. This means you can spend your time on more valuable activities.
